Name of Activity: Blood Donation Camp

Date of the Activity Conduction: 5th October 2021

Event Organizer: NSS Cummins College and Janakalyan Raktapedhi

Venue: Ground floor, Instrumentation Department (Old Architecture Building), Cummin's Engineering College.

Short Report of the Activity:

Currently we are facing is an acute shortage of the blood in all blood banks. Because of the COVID -19 pandemic. The need for blood is increasing tremendously day by day. Maharshi Karve Stree Shikshan Samstha's Cummins College of Engineering have always been contributing to society through different social activities. Blood Donation Camp was organized by National Service Scheme Unit of MKSSS's Cummins college of Engineering for Women in association with Jankalyan Raktapedhi at Cummins College of Engineering for Women. Timing of camp was 1.30 pm – 4.30 pm. The camp was organized mainly for staff of Cummins Engineering College and Hiraben Nanavati Management College. Interested students were also invited to participate in Blood donation camp. The Camp got a good response, more than 50 staff registered for donation. The total count of blood bags donated was 14. Majority of rejections were due to less hemoglobin. Such participants with less hemoglobin were guided to increase hemoglobin with adequate diet.

NSS Activities in AY 2021 – 2022

Name of Activity: National Girl Child Day Celebration

Date of Activity Conduction: 24th January 2022

Short Report of the Activity: The National Service Scheme Unit of MKSSS's Cummins college of Engineering for Women celebrated National Girl Child Day 24th January 2022 under Azadika Amrut Mahostav. National Girl Child Day is celebrated to create awareness of female genocide and the inequalities faced by a girl in the Indian Society. We have done awareness about Beti bachao Beti padhao and help women empowerment on this National Girl Child Day celebration and also made a poster and asked everyone to put it up on their stories so that it could reach out to more people. To give awareness about the rights of a girl child and the importance of girl education, health, and nutrition. We should teach both girls and boys to understand and share work in every situation.

We also asked the students and staff members to fill information in the Google form and share their stories snap with us.

Hello everyone!!!
Hope you all are doing well.

"Accidents bring tears, safety brings cheers"

It is necessary for everyone to be aware of traffic signs and road rules.
Traffic signs provide us with important instructions and information on the condition of roads. But these days, people tend to ignore these rules and risk their life.

So, NSS CCOEW is organizing an online session on **"Traffic Awareness and Road Safety."**

The speaker for the session is "Anil Pantoji" Sir from RTO. He is a faculty at CIRT.
He has conducted more than 700 sessions on Road Safety.

Dear All,

Hope you are safe and fine.

Today we are here to discuss a very important topic that is 'Water Conservation'. We all have once made a project on this topic. But have we inculcated this in our life..?

Let's have a brief summary on this by Niranjani Upasani .

Niranjani Upasani is a Sustainable Lifestyle Coach and Consultant. He is the Founder Director of Sustainable Living Integrated Solutions Pvt. Ltd., a Pune-based company that provides products, services, and concepts that enable people to live a sustainable urban life and enrich the Natural Environment.

Niranjani, a former Japanese language specialist with a reputed US-based MNC, completed his environmental studies from Ecological Society of India, Bombay Natural History Society, Mumbai and ELA Foundation Pune.

He is the founder director and promoter of the NGO "Jeevitnadi - Living River Foundation" Pune.

All must participate and attend the session. We are sure it is worth it .

Name of Activity: Poshan Maah Week3- Poshan Abhiyan, Nutritious Food Activity

Date of the Activity Conduction: 16th September to 23rd September 2021

Short Report of the Activity: The National Service Scheme Unit of MKSSS's Cummins College of Engineering for Women has organized a **Nutrition Activity** to spread awareness of healthy food. This event helped us to get the awareness of nourish food which motivated people to get healthy food. In India, there are 28 states and 8 union territories and people consume food according to what is more likely in their areas. In this, everyone who participated got to know about the importance of a healthy diet in a busy life where people hardly care about intake of healthy foods. We have a variety of healthy foods here like Pulses, leafy vegetables, beans, fruits, dry fruits. Everyone took part and showed enthusiasm. According to their locality preferred foods, they consumed healthy food. The event successfully ended. Participants uploaded their photos on google forms. There was active participation from our college students for this online event.

Notice of the Event:

Dear NSS volunteers,

NSS Activities in AY 2021 – 2022

Name of Activity: Awareness Program to avoid the use of single use plastic

Date of the Activity Conduction: 26/10/2021

Short Report of the Activity: The National Service Scheme Unit of MKSSS's Cummins college of Engineering for Women has organized a '**Awareness program to avoid the use of single use plastic**' by NSS volunteers at their places in last week of October 2021. We took an online survey on how to reduce plastic waste and hence turn down the total amount of plastic waste produced. We are grateful to be part of this event and will ever spread awareness to avoid the use of single use of plastic. Bad waste management practices can cause land and air pollution which results in serious medical conditions in living beings. Proper waste management which reduces pollution and helps save energy is a must. Over 500 billion pounds of new plastic is manufactured each year and roughly 33% of that is for single use and thrown right away. All over the world, companies and individuals are starting to produce fuel from waste plastic. This reuse of plastic could potentially keep enormous amounts of plastic out of landfills and out of the oceans. Students shared about how they avoid using plastic in their daily lives. A few of their suggestions includes using a steel straw instead of plastic ones, always carrying cloth bags while shopping, using menstrual cup instead of sanitary pads, avoiding packaged items from the grocery shops et al. A few responses also suggested of using the household waste as a compost as it saves the energy that would have been used into producing waste products again. Production of products and materials in our daily lives causes polluting and harmful gases into our atmosphere resulting in the rise of global temperature. While plastic has many valuable uses, we have become addicted to single-use or disposable plastic. Around the world, one million plastic drinking bottles are purchased every minute, while 5 trillion single-use plastic bags are used worldwide every year. In total, half of all plastic produced is designed to be used only once and then thrown away. Let's all come together and cut off on our waste. Do something drastic, cut the plastic.

Hello Cummins!

Hope you all are healthy and doing well.

A survey is being conducted, about why and how plastic waste needs to be reduced.

It's surprising but true, from 1950 to 2012, plastic production has increased – from about 1.7 million tons to nearly 300 million tons per year.

We can all agree that these production patterns aren't sustainable, and this is a good reason to reduce our plastic waste.

Henceforth, we all need to come together to save our motherland.

It would be great if you could contribute to this survey by filling this google form.
